## INTERNATIONAL SCHOOL

**Children**  
must be taught  
how to think,  
not  
what to think

Innovation ● Sports ● Culture ● Creativity

[www.mitvis.co.in](http://www.mitvis.co.in)

## VISION

To be an acclaimed international school which merges traditional and modern pedagogical practices aimed at bringing out the very best in our students by identifying and then nurturing their own interests to afford them the skills and education required to create vocations for them in their preferred fields.

## MISSION

To create an environment of exposure while providing a platform for our students to nurture their innate talents and abilities while providing them with a holistic education aimed at their mental, physical and spiritual growth and well being so that they may become valuable future ready citizens to their society and nation.

**“Union of Science and Religion alone  
will bring Harmony and Peace to  
the Humanity”**

- Swami Vivekananda

## FROM THE DESK OF THE PRINCIPAL

Education is not just a process of imparting knowledge for a future job but a lifelong process. It creates an understanding of moral and ethical values to guide one's life in a right path. As a parent, you want the best for your child, and we are proud to be working with you to ensure that they are given the right knowledge to face the future challenges. Parents, students, and the school authorities are a team, and we must complement each other's efforts. At MIT-Vishwajyoti International School, we focus on complete development of our students by involving them in both scholastic & co-scholastic activities as suggested by CBSE & IGCSE. I am sure this will help our children to realize, understand & explore their talents. To do this, the parents and the school authorities must work together to inculcate certain values in the students. "Sound body has a Sound Mind." Let us allow our children to develop physically & mentally. Children learn a lot of values when they are involved in Sports & Games. Some of these life skills & values cannot be taught in the classroom or at home. MIT-VIS provides enough opportunities for the children to participate in Sports & games. "If a plant is carefully nurtured by a gardener, it will become good, and produce better fruits." Therefore, children must be given a good training from their earliest childhood. We are here for the same. I am sure that our students of today, tomorrow will carry forward the Motto of love and unity entrusted in their hands at MIT-Vishwajyoti International School, Mumbai. "Do the work with intention not because of compulsion." With all my love, best wishes and blessings.

- Dr. Sanjeev Kumar Sinha  
Principal

## AN INDIAN DREAM

India as a nation is on the Fasttrack to becoming a global superpower. This dream shared by a billion people is only feasible due to the recent surge in excellent educational institutes throughout the country. Institutes like MAEERs [MIT] have made it possible to train a workforce of competent engineers, doctors, managers and more to help the nation grow and find its place on the International arena. And now, its time to hand over the baton of excellence in education to the children of our nation.

We can only succeed when we inculcate the values of tradition with the requirements of today to create the citizens of tomorrow.

Welcome to MIT-Vishwajyoti International School, Mumbai. Nestled at the very foothills of the Sahyadri Mountains touching the city of Mumbai and spread over a pristine 15 acres is the completely eco-friendly and zero waste campus. Designed to harmonise with nature and to provide an island of peace in Mumbai, the campus endeavours to provide the perfect backdrop to nurture talented students and to help them find their vocation for life.

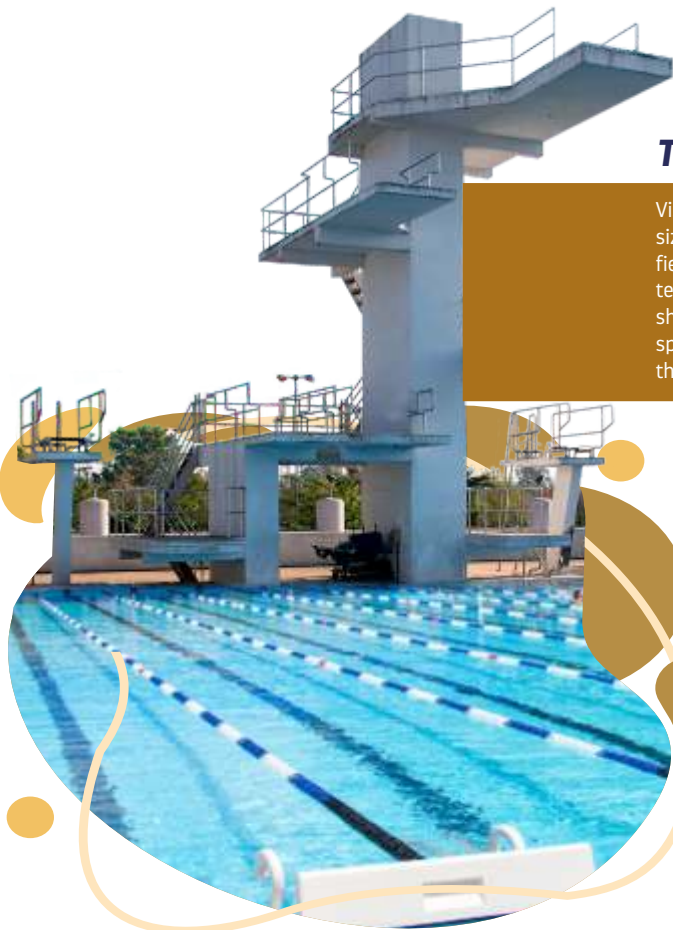

## WHERE YESTERDAY MEETS TOMORROW

MIT-Vishwajyoti International School, an initiative of MAEERs aims at upholding the rich tradition of Guru Shishya parampara to offer spiritual, mental, practical and moral guidance to our children to make them Future-ready citizens of tomorrow.

The school offers an CBSE pattern of education, which is an International standard designed to ensure global competency for the child.

## THE RACE TO PROSPERITY

Vishwajyoti Sports Academy wing is equipped with an Olympic size swimming pool, a 25 feet diving pool, an all-purpose athletic field, tennis court, basketball court, badminton court, table tennis, a billiards room and a horse riding school. If your child shows an aptitude for sports, no matter how selective the sporting activity, it is promise of our school that we will develop their talent and take them to the very heights of their ability.

## ARE WE EXCLUSIVE?

Understanding that genius is reflected not only in academics but also in the arts as well as in sports, MIT-Vishwajyoti International School takes a novel approach by understanding the core capabilities and inclinations of each student and then placing them in an academic, artistic and sports division where emphasis is laid on the strength of each child and their aspirations.

## ACADEMICS DONE RIGHT

Consequently, academics, under our Vishwajyoti Academic wing, will be a nuanced section dedicated to discovering the next physicist, mathematician, economist and theorist from among the children who show an aptitude for it. Our carefully taught curriculum, our extraordinarily talented and gifted faculty and our state of the art facilities will ensure that the children under our charge will have all resources at their disposal to become masters in any academic field of their choice.

In addition, the school will start preparing its students for competitive examinations post their 10<sup>th</sup>, ensuring that success in competitive exams occurs with the least amount of stress and delivers the very best results for our students. We will also be training our students to face competitive exams post their 12<sup>th</sup> such as NEET, JEE, LAW and others so that the student does not require tuitions beyond their school hours.

In **Riding**  
a horse,  
we borrow  
**Freedom**

## THE WORLD IS YOUR CANVAS

Similarly, our Vishwajyoti Art Academy wing will endeavour to teach writing, dance, music, art in all their varied forms to the artistically gifted students. Talent in the arts is as important as any other field and we endeavour to create artists who will actively enhance the prestige of their nation and their own families as they soar to the heights of their artistic expression. Vishwajyoti International School supports all facets of the art, and we are proud to state that we are one of the very few schools that will take courses in Indian traditional art forms as well as contemporary art forms.

## Learning ...beyond Boundaries...

### TRADITION IS OUR INSPIRATION

To improve the concentration, coordination and analytical ability of our students, we will endeavour to draw upon ancient Yogic techniques to align the body, mind and spirit of our students and translate it all into the very best result each individual student can achieve. Understanding that early morning serves as the best time to learn as retention and concentration are at their maximum. The school will start early in the morning.

### OUR PROMISE

At Vishwajyoti International School your child is not merely a student, but is a member of our family. Love and respect, honour and integrity, passion and determination will all be equally imbued to each of our loving students so they shine as bright as they can, and that we can be assured of bright future for our country, our society and indeed our own families. This is where yesterday meets tomorrow.

Where,  
**Learning** is a  
way of life !

## PEDAGOGY

MIT-VIS specializes in academic learning along with physical and artistic learning. This model of education is uniquely holistic as it endeavours to impart not only the best of knowledge to a student, but also develop the student's ethical and moral core to enhance their innate abilities to apply this knowledge they have acquired not only for personal growth, but also for the betterment of society, environment and humanity.

We at MIT-VIS spare no efforts in recruiting the most professional, emotive and understanding staff for our students. We realise that the role of a teacher is perhaps the most influential in the life of a child and in their emotional, physical and mental development.

Our teaching staff reflects this understanding and shall instill discipline, purpose and drive in their students.

Let your  
**Dreams**  
be Bigger  
than your  
**Fears**

## VALUE BASED EDUCATION

We, at MIT-VIS understand that Imparting a value based education is essential for the holistic development of our students. Therefore, in addition to providing them excellence in academics, physical activity and the arts, we also strive to provide them with an ethical and moral sensibility which would enhance their learning while ensuring that they use their accrued knowledge to create excellent careers in the future.

MIT-VIS wishes to imbue students with an international sensibility along with traditional values so that they become an asset to any system they belong to. To ensure this we draw on the four decades legacy of academic excellence of the MAEERs group.

MIT-VIS stresses on experiential learning concurrently with academic learning. This model of education endeavours to impart not only the best of knowledge to a student, but also develop the student's ethical and moral core.

Within this range our emphasis on sports and spiritual growth as well as academics ensures that we provide a holistic and well-rounded education to all our students. This includes yoga, meditation, numerous clubs within the campus ranging from photography, astronomy to theatre and debate; all to ensure that our students find any activity that they enjoy and utilize it to enhance their social skills and their leadership abilities to become the best versions of themselves.

## EXPRESSIONS

Considering the 5000 year rich legacy of music and dance that India as a nation possesses, MIT-Vishwajyoti International School spares no efforts in nurturing the ambitions of our creative students who wish to partake in this rich legacy of ours.

Consequently, we have dedicated music and dance rooms and teachers with the sole aim of providing our students the very best training in music and dance.

In Music we specialise in teaching our students the following

- **Vocal (Indian & Western):** Singing has been an integral part of our culture and indeed the culture of the world for over 5000 years. Singing initially began as a way to praise the Gods and is today enjoyed as an art form throughout the globe. We strive to inculcate melodies and harmonies to all of our acoustically gifted students.
- **Instruments (Indian):** Indian musical instruments such as the tabla, sarod, sitar, jal tarang and others have a recorded history going back thousands of years. Here at MIT-VIS we wish to continue this tradition by ensuring that it passes on to our deserving students.
- **Instruments (Western):** The western world has been very instrumental in the progression of music and musical instruments. Instruments such as guitars, bass, drums are now extremely popular globally. For those of our students who are keen to hone their musical talents on these instruments, we are happy to provide the guidance to nurture them.

**In dance we specialise in**

- **Traditional** - Traditional dance forms encompass Kathak & Bharatnatyam among others. We give training in these forms.
- **Modern** - Modern dance forms encompass freestyle, interpretive and a few western ones. We provide training in them as well.

## STUDENT CLUBS

At MIT-Vishwajyoti International School we realise that any hobby our students may be interested in has the potential of becoming a career path for them in the future, if they are nurtured ably. Thus we place an emphasis on propagating numerous clubs within our school ranging from photography, astronomy to robotics and even math olympiads; all to ensure that our students may find an activity that they enjoy and utilize it to enhance their social skills along with building leadership quality. As result, leading to creating prosperous careers within the vocation of their choosing. Some of the clubs that we have now are -

1. Photography
2. Astronomy
3. Creative Writing
4. Debate
5. Drama

## TREKS & TOURS

It is very important to nurture the inquisitiveness of our students, but also to temper it with responsibility and caution. Consequently we conduct national tours for our students in order to enhance their experiential learning while also ensuring exposure to the real world under the umbrella of protection we provide. We undertake multiple kinds of study tours such as

**Hiking** - Blessed by the Western Ghats' great biodiversity, we endeavor to nurture a child's curiosity towards nature, biology and geography by organizing exhilarating treks and hikes. These activities often are organized around historic structures (such as forts) and natural locations (such as forests, etc.)

**Visits to museums** - Mumbai and its environs host a wide variety of museums ranging from historical to the arts. We believe that regular trips to such institutions have a very positive effect on the mind of a child. Not only this, but we also believe in expanding the mindsets of all our young scholars and so we arrange visits to the NASA center as well as Singapore Science Center.

**Factory Visits** - Ranging from the local ice cream factory to an automobile manufacturer, factories are a very crucial way to get children involved (and fascinated) by the hum of the machinery, the intricacy of the process and to the exciting world of commerce and economics.

## YOUTH PROGRAMS

Youth programs are an excellent way to replicate the environment of some of the most prestigious organizations in our nation as well as globally. These naturally coerce our students to understand what to expect at these prestigious organizations while training them on how to conduct themselves in these environments. Thus we offer Model United Nations, ISRO and many other youth programs so that our students assimilate the workings of these organizations naturally, while also inculcating within them a desire to ultimately choose working for these prestigious organizations professionally.

Model United Nations - also known as Model UN or MUN, is an extra-curricular activity in which students typically roleplay delegates to the United Nations and simulate UN committees. This activity takes place at MUN conferences, which is usually organized by a high school or college MUN club. At the end of most conferences, outstanding delegates in each committee are recognized and given an award certificate.

MUN involves substantial researching, public speaking, debating, and writing skills, as well as critical thinking, teamwork, and leadership abilities.

## CHILD HEALTH

MIT-VIS firmly believes that without catering to the health (physical, mental and spiritual) of a child, their development gets hampered and even adversely affected. Consequently we have spared no efforts to ensure that the children under our watch keep physically, mentally and spiritually fit. To ensure this we have a doctor on call, excellent medical facilities within the campus, tie ups with various multispecialty hospitals and many more. We also ensure that the food being served on campus is wholesome, delicious, vegetarian geared towards the health of the child.

## STUDENT MENTAL WELLBEING

The mindset and mentality of children is very different from that of adults. Moreover, certain actions which an adult may think of as inconsequential often have a very strong bearing on the mind of a child and, in fact, can become a monumental event that will shape the future of the child. As such understanding, realising and sometimes healing the growing mind of a child is as important as imparting academic lessons to them.

MIT-VIS knows the tremendous importance of good mental health in children and so we have invested in a full time psychological counsellor for our children.

## COMMUNITY SERVICE

Community service is one of the greatest teaching tools that we can use. MIT-VIS recognizes the importance of this tool and coupled with the 4 decade legacy of the MAEERs group, which stresses on numerous events geared towards service to the community, MIT-VIS is keen on ensuring that all of our students involve themselves in activities that promote community service. Moreover, community service ensures that the students learn humility, and selflessness.

## ENVIRONMENTAL AWARENESS

Sustainability is the only way forward. MIT-VIS aims to impress upon our students the fragility of the environment we are born in along with the importance of maintaining and respecting it. Environmental awareness can no longer be thought of as anything less than human duty. And as one of the foremost education institutes for children, MIT-VIS believes in ensuring all of our students inculcate these values from an early age. In order to do so we also have organic farming, herbal farming and many more such initiatives to involve our students into the environment and its care.

## FOUR PILLARS

Physical Fitness

Mental Alertness

Intellectual Sharpness

Spiritual Elevation

## ADMISSION PROCESS

The step-by-step process involved in the admission process.

- Step 1:** Fill the Enquiry Form on our website.
- Step 2:** You will receive the confirmation regarding a date and time to visit the campus and meet the counsellor.
- Step 3:** On the campus we will arrange tour of the premises and will share information about the school, fee structure.
- Step 4:** Registration process shall now begin for the child.
- Step 5:** Date will confirmed for an admission test.
- Step 6:** A personal interaction of the candidate/parents with school authorities.
- Step 7:** The result will be intimated via phone/email.
- Step 8:** Letter of admission will be given to the parents.
- Step 9:** Complete the fee formalities along with the relevant document submission.
